Shelby

FOUNDER OF PRIMAL QUEEN!

Hey, I'm Shelby! Founder of Primal Queen

Years ago I struggled with getting optimal nutrition which led to:

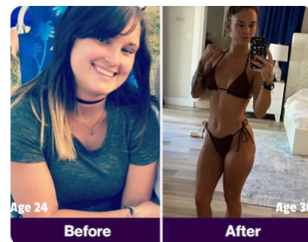

- ✗ Weight Gain
- ✗ Inflammation
- ✗ Hormone Issues
- ✗ Low Energy

And more that I won't bore you with...

Every day seemed like a battle. I was tired all the time.
My weight was a seesaw just like my emotions.

I did a good job hiding it, but I was tired of disguising my problems.

Then... everything turned around for me at the age of 28.
I turned into a low-key health fanatic.

I Tried Everything From:

- Low Carb
- Paleo
- Plant Based
- Green Drinks
- Green Juice & Powders
- Probiotics
- Keto
- Zumba & More

And don't get me wrong...

Some of those things are good and I still do them! **But they weren't the game changer I was looking for.**

I wanted to find what had the biggest impact while also being easy to do and not costing me a fortune.
I know I'm asking for a lot here, but I just knew it had to be out there.

I went on a hunt (pun intended) to find what gives the MOST nutrition without:

- Nasty green drinks that over promise and under deliver
- Taking a handful of pills
- Spending half my day doing it

Here's Why I Fell In Love With Beef Organ Superfoods

That's when Primal Queen movement was born (which is now an army of thousands of Queens that have taken back their health).

I am the most pessimistic cheapskate EVER.

If I could have turned off these adds I would have for months.

On a particularly rough night of cramps, extreme moodiness and utter exhaustion I took and ambian and fell for this. I ordered it and forgot about it, until it showed up. I immediately cancelled my subscription but kept my products that I ordered. It wasn't their fault I ordered random stuff in a bottle. I've been taking them and the amount of POSITIVE effects has me truly mind blown.

I've never been more impressed by anything purchases I've ever made.

RUN DON'T WALK. Obese and in a wheelchair just two weeks with crippling pain. 16 lbs down already- my wheelchair has been in the corner of the room and I'm even in tennis shoes right very now about to go outside walking!! I did not believe it and I promise I've checked if maybe there's anything else to contribute this to, but every word is absolutely true. Your body is craving this and greedily takes it in and absorbs it giving real benefit. I am constantly standing in the grocery whipping out my bag and telling my story- so yall got some ladies sprinting your way courtesy of a satisfied customer

I have awful endometriosis that leaves me on the couch curled in a ball the week before my period and during. I'm on month two and last months period had no week before of cramping and was a little lighter than usual. Wanted to try it for this reason specifically, plus the other benefits would be nice! This month I didn't even know I got it, cramp free! Loving it so far! ❤️

How Our Ancestors **THRIVED** Before We Trusted Big Corporations More Than Our Own Bodies

Beef organs have always been a cherished and sought
after food source...

It's even been the most prized food source among many
tribes.

But in the last few decades, we've moved away from eating
organs.

**Why? Because big corporations have changed the way WOMEN
treat our health and get nutrition.**

They're focused on keeping you hooked on quick fixes, more pills, more
highly processed **comfort** foods, and more products that turn feeling
unwell into a business model.

Or... they'll sell you isolated vitamins, multivitamins, and greens powders
that *sound* impressive on the label, but still don't replace real, nutrient-
dense food and daily habits that actually support your body.

**At Primal Queen, we believe that beef
organ superfoods are the **KEY** to filling the
GAPS modern diets leave behind.**

By giving your body incredibly dense nutrition that beef
organ superfoods can provide, we're going back to our roots.

Because they come straight from the source, vitamins and
minerals in beef organs are absorbed more efficiently.

We're creating the future of health by blasting to the past.

★★★★★ THE COMPANY ON THE WHOLEEEEE IS MOST DEFINITELY TOP TIERRRR!

First of all, I can definitely say that this has worked to correct the hormonal issue I was having. My menstrual cycle was consistently 28 days since it started in 1999, but in 2019 I had a stillbirth and ever since then everything was just off. It would range from 24 to 30 days and this was also causing issues for me when I was trying to get pregnant again. I saw the Primal Queen beef organs in 2025 and I decided to try it. I started taking them back in November of 2025 and by January 2026 I was back on my 28 day cycle. That alone was phenomenal for me.... On top of the fact that my cycle is back on track, their customer service is FREAKING PHENOMENAL. I signed up for the 3-bag three month subscription, but I had an issue with an expired card. When I updated my payment it only charged me for one bag instead of my three bag subscription. I sent an email at 9:36 a.m. asking if someone could help me get my correct subscription order put through and. WITHIN THE SAME MINUTE, at 9:36 a.m. the previous order was canceled... by 9:37 a.m. the new order was made that corrected my subscription, and by 9:38 a.m. I received an apology email. I have never in my entire life gotten a response back so quickly from a company! The fact that the quality of their product is superb is already amazing... But customer service quality can make or break a company and based on what I've experienced they can only go up from here!!! THANK YOU FOR EVERYTHING PRIMAL QUEEN!!!!

★★★★★ Going well

So far I have no complaints. I'm 4 months in. Overall, can't say I feel any difference but I have lost some weight more consistently with the intermittent fasting, which is nice. Don't know if it's related as I started another supplement at the same time but I do really believe PQ has been helpful in that area, especially reading others experiences with PQ. 3 more months we're delivered today so we'll see what the next 3 months brings. Thank you PQ!

★★★★★ Real Review!

I've been taking Primal Queen for just over a month. I know it can take up to 3 months for it to complete changes at a cellular level but what I have noticed thus far have been a game changer! I have noticed my moods have levelled out with my cycle (which was a huge deal) my fiancé even commented on it. My bloating has lessened, my appetite has slightly decreased, nothing drastic just feeling fuller sooner which has been great. I have really been enjoying the product and look forward to the next two months!

★★★★★ **Trying Primal Queen**

I wanted to give an honest review so I've taken them over the course of 3 weeks and I've seen great improvement in my mood & energy. I've been dealing with hormonal acne & I'm not sure if it's the beef organs but the breakouts have slowed down & are not as bad I would definitely continue taking this product thank you so much for this experience!

★★★★★ **Finally stable**

I have tried so many supplements since my hysterectomy 10 years ago. And things would help, but nothing has made me feel this hormonally stable. EVER! I am a believer! If you haven't tried it, do it! Don't wait to feel better!

★★★★☆ **Optimistic**

I have used Primal Queen as directed for a few months. I feel that my progress has been lacking in what I have expected of the adds I keep seeing. I wish I could lose the excess weight like them. I understand everyone is an individual case. But I have lost 2-5 lbs only for it to come back a week later.
